SUPERINTENDENT'S REPORT

Mrs. Chairman and Members of the School Board:

I hereby submit for your consideration my ninth annual report of the Campton schools.

The schools opened in September with but two changes in regular teachers: viz., Hazel Corson at Livermore Falls in place of Alice Allard and Ethel L. Pease in place of Bertha McAllister at Beebe River grammar. Cadets from the Plymouth Normal School are employed, as in the past two years, in the Branch, Blair and Bog schools.

The schools are kept up to the same standard of efficiency as in the past and a normal growth is evident in the schools as a whole. The work is checked by tests of various kinds to determine efficiency as well as progress. There are cases where greater degree of accuracy and speed in fundamentals are desirable. To meet this need a larger amount of extra practice is given in the fundamentals as time will permit to those in special need. By this, we are in hopes to raise the standard of all.

The school at the Branch was suddenly closed last June when a suspected case of scarlet fever was reported. The suspected case proved to be not scarlet fever.

The school attendance in some parts of the district was broken up by the November flood. We are in hopes that the new year will bring about normality again.

Transportation this year is from Hildreth Hill to the Branch and from Beech Hill to Livermore school in Plymouth. For a short time in the fall, transportation was furnished from the east part of the town to the Center school.

There are three non-resident pupils attending our schools for whom we receive tuition and 29 resident pupils are attending high school.

The health examination of the school children was made by Mrs. Marie Violette, R. N. of Lincoln. Defective teeth seem to be the principal ailment reported with some cases of tonsils and adenoids.

The school census, taken in September, reported 103 boys and 93 girls or a total of 196 children in town between the ages of five and sixteen. Of those reported, 159 were registered in the local schools, 12 attending high school and 5 elementary schools outside of the district, or a total of 173 reported in school and 23 were reported as not in school. Those not in school, 19 were between 5 and 8; 2 between 8 and 14; and 2 between 14 and 16. This shows an increase of 21 over the census of last year.

The school registers last June showed the following four pupils with a perfect record for the year; viz., Ruth Adams, Lilla Mitchell, Mildred Moulton and Roland Tardiff. They also had recorded 15 visits by members of the school board, 273 by the superintendent of schools, 517 by citizens and others and 360 tardy marks against the children. The per cent of attendance for the year was 94.66 which is a little better than that of the previous year with 94.61.

The schools last year were actually in session 176 days. This year, we plan on meeting the new requirement of 180 days net. To do this, we have planned a school year of 37 weeks which we expect—less the holidays—to net us 180 actual school days.

The school building at Center Campton was remodelled by changing the lighting, installing chemical toilets, making an inside cloak room, painting it inside, and laying a new shed floor. One side of the roof was shingled and the other needs to be shingled. Some shingling was done at Beebe River. Outside painting and some more shingling should be done another summer.

May we not all make school going a business for our children and make an effort to see that they are punctual and regular in attendance. By so doing, we shall realize a larger return on our school investment.

Respectfully submitted,

ALONZO J. KNOWLTON,

North Woodstock, N. H., January 2, 1928..
